The widest variety in stanchion styles and sizes!

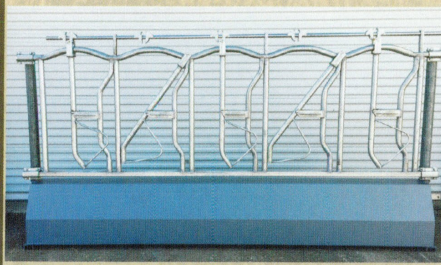

At DaSilveira Southwest, we have worked diligently to provide our customers with a high quality product. Our patented designs feature the use of few moving parts providing **INCREASED DURABILITY AND A LONGER PRODUCT LIFE.** An added benefit of our streamlined engineering allows for simple installation, operation, and maintenance.

The widest opening on the market allows easier access for larger cows and bulls.

Our New Extra Wide "Self locking CROWN Stanchion"

This new and improved stanchion has an 18 7/8" opening. Your cows will have more space to enter the stanchion with out compromising spacing from hole to hole along with the widest down cow release. Also our new innovative Lock-Rail Guide makes removing and installation of the locking mechanism easier. Available in 5 holes in 10' Cow Size and 6 holes in 10' Heifer Size.
